

# Stop the Spread of Salmonella

After Touching or Holding a Baby Chick

Wash Your Hands So You Don't Get Sick

Baby chicks are not good pets for children under the age of 5 years

Do not nuzzle or kiss chicks

Keep chicks out of the kitchen and family living areas

Do not use the kitchen sink to clean cages or feed and water containers

Call your health care provider or local health department if you think you have have a *salmonella* infection

To Find Information For The Local Health Department In Your Area Visit
